Date Paid:_____ Check #_____
STUDIO POLICY: NO REFUNDS

Placement and Advancement in Ballet Classes: Advancement is based on several factors, including technical ability, maturity, interest, and attendance. 2 years of pointe work is an additional prerequisite for Ballet IV. Ballet Levels differ from academic grades in that students should expect to repeat levels for two or more years before being prepared to advance. Dancers may advance during the year, but typically will advance at the beginning of each academic year. New dancers aged 7+ are required to take a placement class to determine the appropriate level.

Ballet Levels: Students enrolled in Ballet II, III, and IV are expected to take the respective number of weekly ballet classes for their level. This is important for safe progression. Students have the flexibility to choose any ballet technique class at their level or below (including Open Ballet, Adult Ballet, and Privates) to fit in the weekly class requirement. Add-Ons like Pre-Pointe do not count towards the weekly classes.

Pointe Work: Pointe can be highly dangerous and cause permanent damage if a student is not appropriately prepared. We place students en pointe individually, at any time during the year. Similar to level advancement, students are placed en pointe based on technical ability, maturity, attendance, and strength. Students also must be around 11 or 12 years old, and regularly take 3 ballet technique classes per week. Pre-Pointe is required for at least 1 semester before beginning pointe work.

Cancellation Policy:
If 3 or fewer students enroll in a class, the class may be cancelled after the first month. Parents will have the option to enroll their child in a different class, or continue the class at our private or semi-private (2 student) rate.

Make-Up Policy:
Students are expected to make up missed classes as soon as possible. Missed classes should be made up in a lower ballet level or an elective class within the semester.
